Introduction

This project was a "quickie" for me. While I'm sure other authors have explored similar themes in erotica and haiku poetry, I wanted to add my unique touch and rename it to 'Haiku-rotica' - an infusion, if you will. All my writings come from vivid scenes in my mind. I write to bring these images to life, if that makes sense.

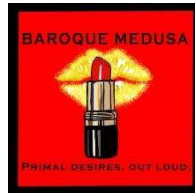

May you enjoy this work, and if this is your first time reading my work, you can find me online at:
